

It's Awards Season!

We are excited to announce that design build awards season is upon us again, and we are gracious to have received a handful of awards so far! Pro New England awarded us with a Gold Award for one of our latest bathroom projects, as well as a Silver Award for a foyer addition.

We are also grateful to have received two Regional Awards from the National Association of the Remodeling Industry (NARI) for the same bathroom that the Pro Awards recognized, as well as a beautiful custom bench remodel. Thank you each of these industry organizations for recognizing our projects as award winners!

All In For Home!

A Fun Night of Fundraising

On April 15th we hosted "All In For Home", a casino night fundraiser benefiting Hospitality Homes – a Boston-based non-profit that works to support people who are traveling to Boston to undergo medical treatment by finding them and their caregivers a place to stay.

It was an incredibly fun night full of friends, delicious food, and casino games, all in support of a great cause. There were several donated gifts that were auctioned off, and by the end of the night \$61,000 was raised for Hospitality Homes.

From casino tables to the conversations and laughs throughout the night, it was an evening filled with energy, generosity, and purpose. Thank you to all of our vendors and attendees who showed up to support such a great cause!

Welcome to 503 Main Street!

If you weren't already aware, we are beyond excited to announce that earlier this year we moved our office down the street to a brand-new space that our team has worked hard to create! Our old office was a fantastic home to Mitchell Construction for many years, but unfortunately, we simply outgrew it.

A few weeks ago, we welcomed current and past clients, our industry partners, and anyone who was curious and wanted to stop by, into our new office space for a little tour of our new home! With a state-of-the-art kitchen, beautiful ADA

bathrooms, a clean and professional conference room, and a stunning reception area, it was so much fun to welcome new and old faces to get a peek into where we make the magic happen!

Thank you to everyone who came out to spend a fun evening with us, and we welcome anyone else to come stop by and check it out if you haven't already!

Welcoming Entryway

Built off an existing porch, this addition expanded the home's entryway to improve flow and daily function. Previously, the front door opened directly onto a staircase, creating a cramped and awkward arrival, with only a small, disorganized mudroom to the side. By setting the front door back, the foyer gained meaningful square footage and a more gracious presence. The mudroom was also enlarged to include a walk-in closet, providing organized storage. The result is an entry sequence that feels intentional, welcoming, and designed to support everyday life.
